# **Analysis of Ningbo's Imports from Central and Eastern European Countries**

In 2022, Ningbo's trade with Central and Eastern European countries totaled 45.04 billion yuan with a year-on-year increase of 17.8%, of which imports amounted to 11.15 billion yuan with a year-on-year increase of 47.5%. It mainly has the following characteristics:

**(1) Imports have grown rapidly against the trend, and the scale has exceeded 10 billion for the first time, accounting for more than 5% and 70% of the national and provincial proportions respectively.** In the case of negative growth in the country, Ningbo's imports from Central and Eastern European countries continued to maintain rapid growth on the basis of doubling in 2021, with growth rates of 52.4 and 15.9 percentage points higher than that of the whole country and the province (-4.9% for the whole country and 31.6% for the province), accounting for 5.39% and 70.3% of the whole country and the province respectively, an increase of 1.91 and 8.3 percentage points respectively over last year.

**(2) The main body of enterprises continued to grow, and the number of enterprises with an import value of more than 10 million increased**

**by more than 1/4.** The number of import enterprises reached 920, getting an increase of 7 over 2021, of which the number of enterprises with an import value of more than 10 million reached 91, an increase of 19 over 2021, and 95% of the import volume was completed with 1/10 of the actual number of enterprises, driving the city's import growth by 55 percentage points.

**(3) The import of agricultural products grew faster than average, and meat imports increased 100 times.** The import of agricultural products was 290 million yuan, a year-on-year increase of 62.5%, the growth rate was 68.4 percentage points higher than that of the whole country (-5.9%), accounting for 6.25% of the country, an increase of 2.3 percentage points over 2021, of which meat imports achieved a breakthrough, with an import volume of 72.56 million yuan, an increase of 106 times year-on-year, accounting for more than 1/3 of the country, and alcohol (33.46 million) and dairy products (76.2 million) also accounted for 12% and 8% of the country respectively. Among other commodities, automobiles and bulk commodities imported 5.19 billion yuan and 4.15 billion yuan respectively, accounting for 83.8% of the total.

**(4) Closer cooperation in key countries, with imports from Slovakia**

**and Poland accounting for more than 3/4.** Imports from Slovakia amounted to 5.28 billion yuan with a year-on-year increase of 42.0%, and the main commodities were automobiles; Imports from Poland amounted to 3.11 billion yuan with a year-on-year increase of 112.1%, the main commodity was copper, and imports from the two countries accounted for 75.2% of the city, an increase of 7.7 percentage points over 2021, 90% contribution to the growth of import goods from Central and Eastern European in the whole city.

**(5) The role of Beilun District as the main import force is increasingly obvious, accounting for more than 70% of the city.** Beilun District's import value accounted for 74.4% of the city, which having an increase of 4.4 percentage points over 2021, and the import growth rate was 55.3%, exceeding the city's average by 7.8 percentage points. Yinzhou and Jiangbei ranked second and third in import scale respectively, and the growth rate of imports also exceeded the city's average
